Porto Rico.

Porto Rico ranks fourth in the Greater Antilies, having first place, however, in density of population and general prosperity. In 1855 cholera carried off 30,000 of the inhabitants. Stili, it's healthy. The city of San Juan, of perhaps 40,000 popuiation is situation on an island, connected with the mainland by a bridge. Its harbor is one of three only which are safe at all times from a ground swell, which often breaks against the island cliffs with great violence. -Exchange.

#### Silver Service Por Battleship Kentucky.

We received last week (but too iate for our last issue) the following circular from Col. Harry Weissinger, of Louisville:

Louisville, Ky., July 27, 1898.

. The great battleship Kentuky, named in honor of the State, was, in the presence of the Govenor and many representative citizens from all parts of the State of Kentucky, launched March 25, 1898, and will be put in commission sometime between January I and March 1, 1899.

The presence of Kentuckians at the launching was merely a recognition of the honor done the State by the Government, and it was universally conceded that something more substanciai must be done by the people of Kentucky, and that when the great ship shail have been completed, a handsome silver service emblazoned with the arms of theState should be presented.

Such has been the custom of aii the States which have been so honored by the Government. Kentucky, I know, wili.. not be behind, but will rather excei them in the splendor and universality of the offering.

The glft wili not cost iess than ten thousand doilars. It is proposed to secure this amount by popular subscription. Every town in the State of Kentucky should be represented, and, with This will be the last opportunity the view of making the subscription as general as possible, I have addressed this letter to representative citizens in every part of the State. No one need fear that his subscription will be too large, no none so small that it wili be overlooked. We want both doliars and dimes, for it is to be the people's gift.

. With the gift to the ship will go a list of the contributors, and the place of residence (but not the amount), so in making your contribution please write your

name and address distinctly. It is also proposed to publish a souvenir book which will contain a cut of the battleship "Kentucky," with description; cut and description of the sliver service; an account of the launching and the presentation also names of subscribers. The book will also contain the latest revised list of the American Navy and other interesting data. The publication of this book depends largely on the amount of the subscription; it will be cent free to those who contribute \$20 or more.

As chairman of the Finance Committee, I ask your personal

co-operation in this work; that you will at once take this mat- old ter up with your neighbors to pen: liberally and promptly met.

The splendid achievements of the Amercan Navy in the present war thrill every American heart with pride whenever it is mentioned, and I am persuaded that on this occasion there will be no backwardness on the part of our people, but a patriotic rivalry as to who will give first and most.

> Yours respectfully, Harry Weisinger.

Chairman Finance Com. N. B .- Address all letters containing subscriptions to Jas. F. Buckner, Secretary Board of Trade, who will acknowledge receipt of same.

> Two-thirds of the letters which pass through the postoffices of the world are written by or sent to English speaking people.

The fact that people living in the country are frequently better posted on current issues and questions than those living in towns and cities is becoming quite noticable. It is attributed to the fact that the country peopie read their papers carefully, overlooking nothing-not even the advertisements. - Morganfield Sun.

### An Old Adage Reads:

"There is a place for everything" Now for everything to be in its The Louisville Dispatch should be in the home of every Democrat in the South. The Dispatch is the people's paper, owned by the people and read by the people. The Dispatch is the only Democratic paper published in Louisville. It stands squrely on the Chicago platform. It is not only in a flourishing condition after eighteen months buttleing against adverse circumstances, but is to-day the best medium in the South. And its motto-If you see it in the Dispach it's so; If it's so it is always in the Dispatch, has been fully verified during the American-Spanish war, during which the superiority of its news service has been daily apparent.

The Dispatch news service is furnished by the New York Sun, the Chicago Inter-Ocean, the Northern Press Association and the Leslie Syndicate with an active salaried correspondent in every important staff of over 300 correspondents in Kentucky, Tennessee and Indiana. Get the D spatch, it gives the news, and tells the truth about it.

Married Three Times."

A special from Somerset says: A remarkable and unusual case was made public here today by the marriage of an old couple in the County Clerk's office,

Over thirty years ago Sampel Pruit, a well-known citizen, married Miss Josephine Merrix, in this county. After fifteen years of married life they were divorced, the husband soon after marrying Lucinda Sandifer, and the divorced wife becoming Mrs. A. H. Buster. Mrs. Buster was divorced in about seven years, and Mr. Pruit tired of married life in about one year. He then took as his wife Miss Pollie Crabtree, but was divorced from her some time later. Mrs. Pruit No. 2 married Juckson Ware in the meantime. She was divorced in about a year, and her divorced husband married Mrs. Betsy Bodby.

Now the last chapter in this strange drama of marriage and divorce is to be written, and details the wedding of the old couple who first mairied in the morning of life, the husband after being married and divorced three times and the wife after two matrimonial ventures which were unsatisfactory.
